EXPLANATION OF RELEVANCE

The above references were identified and discussed at page 2 of the present specification. Reference AA corresponds to German OS 197 21 985. Applicant stands by the statements in the specification concerning the teachings of these references.

Reference AL corresponds to copending United States application Serial No. 09/388,582 which was filed on September 2, 1999 ("Directly Code Magnetic Coil Particularly A Gradient Coil, And Method For Manufacturing Conductors therefor"). That application is pending in

Group Art Unit 2832, and may be used as a translation of Reference AL, although Applicant does not represent that it is a literal translation. Since Applicant assumes the Examiner has access to this copending application, Applicant has not burdened the present file with a duplicate copy, however, if the Examiner would prefer that a copy be provided, the Examiner is requested to notify the undersigned counsel and a copy of this copending application will be submitted.

The present application and Serial No. 09/388,582 are commonly owned by Siemens Aktiengesellschaft.

A translation of Reference AM is not readily available to the Applicant, however, the aforementioned statements in the specification constitute a summary of its teachings.

Copies of each of the above references together with Form 1449 are submitted herewith.

As of the date of mailing of this Information Disclosure Statement, a First Office Action on the merits has not been received in connection with this application. This Information Disclosure Statement is therefore in compliance with 37 C.F.R. §1.97(b)(3), and no fee is necessary.

All claims of the application are submitted to be patentable over the teachings of the above references, taken singly or in combination. Early consideration of the application is therefore respectfully requested.

Respectfully submitted,

 (Reg. No. 28,982)
